WATER HEATING

None

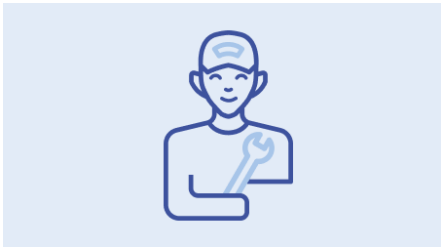

Delivery

TECHNOLOGY INSTALLATION

I would like to request technology installation

This service includes: Installation of the technology in a technology shaft, garden shed, garage or cellar. Please note that we do not provide salt, sand, chlorine or pH liquid. This must be provided by the customer for start-up or commissioned by us. In addition, there are material costs for flexible hoses, bypasses, ball valves, angles and materials required for the technical installation. These costs are calculated according to consumption and cannot be specified in advance. Please note that we do not carry out electrical installations; this must be organized by the customer. An electrician must connect the system to the grid.
